## Habitat ReStore Material Reclamation Center

The Watauga County landfill closed in 1994. Since then, the County contracts with Waste Management to haul garbage to the Iris Glenn Landfill in Johnson City, TN at \$45.00/ton for disposal.

NEW

Since the opening of the Habitat ReStore Reclamation Center in December 2007, almost 58 tons of material has been salvaged and kept out of the landfill!

That is equivalent to...

7 1/2 elephants

34 NASCAR cars

38,440 Mac Book Air Laptops

134,124 cans of soda

For those materials alone Watauga County taxpayers would have paid over \$2,500.00. Of course, that doesn't include the gas and labor costs to transport those materials to Tennessee. We are proud to serve Watauga County and our environment through salvaging, refurbishing, and reselling these materials. All ReStore sales proceeds go to cover Watauga Habitat's administrative costs and help build simple, decent homes for families in need.

The Habitat ReStore is an innovative response to the problem of construction waste piling up in land-fills. It is costly and environmentally harmful to landfill such waste. Contractors, Engineers, Architects, Remodelers and Do-It-Yourselfers are encouraged to contact the Habitat ReStore to find out if we have usable materials for your upcoming projects.

Shop. Donate. Volunteer.

Your material donation provides:

- Useable material for homeowner, contractor, and do-it-yourselfer projects
- A means to keep useable materials out of the waste stream
- Financial resources for building new Habitat homes
- Sense of pride in our community and environment

Wondering what else is accepted? Want to know what's in stock? Ready to volunteer? Just give the ReStore a call!

The Restore is located at 2447 Old Highway 421S.  
Our phone number is (828) 268-9696.

Acceptable Items for donation:

Windows  
Appliances  
Furniture  
Lumber  
Hardware  
Plumbing  
Electrical  
Flooring  
Tools  
Household Items
